

Skills Bootcamp in Plant Operations Agricultural Tractor

Funded by
UK Government

**SKILLS
FOR LIFE**

**COURSE
DURATION**
10 DAYS

Machine in Focus

Machine characteristics: An agricultural tractor is an engineering vehicle specifically designed to deliver a high tractive effort at slow speeds, for the purposes of hauling a trailer or machinery. It has various applications in the construction industry due to its versatility and power.

Applications: Earthmoving, site preparation, material handling, digging and excavation, road construction and maintenance, trenching, installing utilities.

Used in: Construction, Mining, Agriculture, Landscaping.

Aimed at: New entrants and existing operators who want to gain work operating an agricultural tractor in the construction industry.

BOOTCAMPS**

Course Content

Learners will receive guided training in the following areas:

- Understanding and complying with legislation, manufacturer's instructions and operator safety codes, relevant to the machine and work activities.
- People Plant Interface (PPI) awareness.
- General hazards associated with the agricultural tractor and appropriate control measures.
- Identifying machine components / operator controls and completing pre-shift, operational checks and appropriate machine maintenance
- Preparing the machine for site / road travel and working tasks.
- Driving and manoeuvring the machine over varying terrain and in confined or restricted spaces.
- Understanding the principles of Eco-Operation.
- Introduction to safety devices, including human detection systems and 360 cameras.
- Correctly attaching and setting trailers, mounted and PTO drives, ready for operation.
- Safe and correct operation of the machine when carrying out working tasks.
- Storage and transport of implements and attachments.
- Understanding safe loading/unloading, on/off the transporter.
- Machine shut down procedures and security.

Skills Bootcamp in Plant Operations Agricultural Tractor

Course Delivery

A blended delivery model will include theory, practical and simulator training.

Operator Behaviours

Learners must be able to demonstrate the following operator behaviours to successfully achieve the Skills Bootcamp in Plant Operations:

- A health and safety-first attitude.
- Ability to work effectively and undertake work in a reliable and productive manner.
- Ability to maintain positive customer relationships.
- Work well independently and as part of a team.
- A positive attitude and apply discipline to their work.

Assessment

Learners will complete a theory and practical test on completion of their training and will be required to meet the Construction Plant Competence Scheme (CPCS) test criteria.

Functional Skills

Learners will complete a functional skills assessment in English and Maths prior to starting the Skills Bootcamp. Support will be provided to learners to further their skills. Functional skills are the fundamental English and Maths skills to aid learner's working and personal lives.

Entry Criteria

Skills Bootcamps are accessible to those who meet the following criteria:

- Aged 19 years or older.
- Have the right to work in the UK.
- Live in England.

Learners will require a minimum level of fitness as this course contains practical activity.
